The City of Norman in conjunction with the Oklahoma Department of Transportation is proposing new roadway improvements to Porter Avenue from Rock Creek Road to approximately 1,000 feet north of Tecumseh Road. The status of the project is in the design stage and the City of Norman has scheduled a public meeting to discuss the project impacts and to gather information through public participation. It is also our intent to notify the adjacent property owners of this upcoming project and to alert them that the marking of, and location of, the various utilities, gathering of survey and environmental information in this area is **not** an indication that construction work is eminent. This meeting is not necessarily intended to limit any individual that has an interest in the project, anyone is welcome. If you know anyone who would benefit from or have interest in this project please feel free to invite them. The meeting is scheduled for **Thursday, April 29, 2010, from 6 pm to 8:00 pm at the City of Norman, City Council Chambers, 201 W. Gray.** If you have any questions, please call Lonnie Ferguson at 366-5454.
